OBJECTIVE

Highly skilled and motivated front-end developer with 2 years of experience in creating and maintaining responsive websites and web applications. Proficient in HTML, CSS, and JavaScript, with a solid understanding of CSS preprocessors and JavaScript frameworks, such as React. I am seeking to leverage my skills and experience to contribute to a dynamic and innovative company

SKILLS

Technical Skills HTML, CSS, JavaScript, React Js, Git, Tailwind CSS, Bootstrap, Redux

EXPERIENCE

Project Engineer

Wipro Ltd

Jan 2022 - Present
Bangalore, Karnataka

- Led the development process(Performance NXT Application:): Took the project from initial design through to completion, ensuring all milestones were met on time.
- Stakeholder collaboration: Engaged directly with clients and stakeholders to gather requirements, understand their needs, and provide effective solutions.
- Cross-functional teamwork: Collaborated closely with designers and back-end developers to create seamless, user-centric experiences.
- Responsive design and optimization: Implemented best practices in responsive design and performance optimization to ensure a smooth and engaging user experience across all devices.
- Performance testing: Conducted rigorous performance testing based on the client's Service Level Agreement (SLA) to ensure the application met and exceeded quality standards.
- Troubleshooting and debugging: Diagnosed and resolved issues during the development process, ensuring a stable and efficient final product.

EDUCATION

Bachelor of Engineering- Electronics and Communication,
Srinivas Institute Of Technology, Mangalore

2017 - 2021

PROJECTS

Coin Trace Designed and developed the front-end architecture using React.js. Utilized Context API to manage global state and ensure efficient data flow across the application. Integrated CoinGecko API for fetching and displaying cryptocurrency data. Integrated charts and graphs to visualize market trends and historical data.[link](#)

Job Finder Application Developed a Frontend application for job searching using React.js. Ensured responsiveness for both desktop and mobile devices. Integrated with mock data to simulate job listings and search results.[link](#)

Hotel Room Booking Application Created a hotel room booking application frontend using React.js. Designed and implemented UI components for room listings, booking forms, and user authentication. Ensured a seamless user experience with responsive design and intuitive navigation.[link](#)
